Level CLUSTERS

Recognizing reading groups have readers of different abilities, these level clusters are designed to offer a variety of books across different reading levels.

- All books included in these clusters are from a variety of publishers — providing books in different formats and type sizes.
- Each cluster contains one copy of each title across 5 progressive levels.
- Every title included in these collections appears on either the Reading Recovery Book List 2007 or a previous listing.

Alphabetical Title Index

Reading Recovery® is a registered servicemark of Ohio State University.

The complete Reading Recovery Book List, created by the Ohio State University, includes books from numerous publishers, since a premise of the program is that children be provided with a wide range of reading material. One publisher's book list alone is not sufficient to implement a Reading Recovery Program.

Book levels are subject to change as they are periodically tested and reevaluated.
